

# The Riedy Reader

## April 2019

Join us in saying WELCOME to the **FamilyLife Podcast Network!** A few years back here at FamilyLife®, the name of the 'radio department' changed to the 'audio department' in preparation for a time like THIS! As you know from our letter last month, we are still committed to producing the **FamilyLife Today®** radio broadcast to be distributed to hundreds of radio stations. Terrestrial radio, as it is often called, is still the most popular listening option in the U.S., especially when in the car. Growing in popularity, though, is the podcast—digital content produced and available online for the public to choose when and where to listen. We have had FamilyLife Today content available as a podcast option for a while, but now we are adding to that content. With these new podcasts, we can provide even more Biblically based content to meet the needs of even more families. The two podcasts listed here may look familiar to you, but turn the page over to meet our newest additions!
